

# 3D Communication s domestic 5G base station ranking

## Overview

---

How big is the 5G base station market?

Macro cells represented USD 22.9 billion and 61.3% of the 2024 5G base station market share, providing umbrella coverage and mobility anchor services. Yet small cells are forecast to expand at a 29.4% CAGR, pushing their slice of the 5G base station market size toward USD 50 billion by 2030.

What are 5G solutions?

These solutions include 5G radio access products, which are used to build the base stations and antennas that form the backbone of 5G networks. It also offers 5G transport solutions, which are used to connect the base stations and antennas to the core network.

How big is the 5G infrastructure market?

Looking forward, IMARC Group expects the market to reach US\$ 258.0 Billion by 2032, exhibiting a growth rate (CAGR) of 42.94% during 2024-2032. Learn about opportunities, challenges, and trends in the global 5G Infrastructure market with IMARC's market research report. Try a free sample today!

What are the benefits of 5G in the data centre sector?

Within the data centre sector, some of the benefits of 5G networks include delivering higher peak data speeds, lower latency, greater reliability, an increased network capacity and increased availability. With 5G technology, industry leaders like those featured in this list are aiming to create a smarter and more sustainable future.
