

500kWh Energy Storage Container for Oil Platforms

Overview

Choose from 250kW up to 500kW total PCS power ratings and capacities ranging from 500kWh to 2200kWh. All-in-one design contains battery racks, PCS, EMS, HVAC, UPS, controls, networking, fire suppression system and redundant safety systems within the container.

Choose from 250kW up to 500kW total PCS power ratings and capacities ranging from 500kWh to 2200kWh. All-in-one design contains battery racks, PCS, EMS, HVAC, UPS, controls, networking, fire suppression system and redundant safety systems within the container.

It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy expansion and front maintenance, while a built-in local monitoring EMS allows for remote oversight. Additionally, an optional.

The series of energy-type energy storage products adopts a lithium iron phosphate chemistry. It has high energy density and a long cycle life. The system design is highly integrated. The box structure is compact and the space utilization is high. It is easy to install using the rack with a flexible.

How to choose a 500 kW / 1075 kWh containerized energy storage system?

When choosing a 500 kW / 1075 kWh containerized energy storage system, you need to consider your application scenarios, equipment performance, system security, scalability, vendor reputation and many other factors. Ensure that.

The Bluesun 40-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The BESS.

MEGATRON 300 & 500kW Battery Energy Storage Systems are AC Coupled BESS systems offered in both the 10 and 20' containers. Designed with either on-grid (grid following) or hybrid (grid forming) PCS units, each BESS unit is capable of AC coupling to new or existing PV systems making them an ideal.

Cutting-edge, fully integrated, 3-phase 480V battery energy storage system with EMS. Optional equipment includes microgrid controller and automatic transfer switch. Designed to support time-of-use (TOU) arbitrage, demand charge management, microgrid, PV self-consumption, resiliency, and more.
