

# 50kW folding container for fire station in Luxembourg

## Overview

---

Can shipping containers be used for fire training?

Our containers can easily be customized and redesigned to serve as fire training structures and first-responder training facilities for practice drills. Choosing shipping containers for these structures is a simple way to cut down on the cost of construction without sacrificing durability.

Why did the fire department use a shipping container complex?

The fire department wanted to use a shipping container complex, as these facilities allow firefighters to better train in real-life scenarios with the necessary safety guards in place.

What is a fire training container?

These fire training structures offer an investment in firefighter safety by providing fire scenarios and challenges while allowing firefighters to train in safe, near real-life conditions. These containers offer a versatile environment, from realistic fire training props to unique or specialized environments such as multi-floor fire training.
