Washington, October 17, 2025 — Agence Française de Développement (AFD) and the Global Energy Alliance for People and Planet have signed a USD 200,000 contribution agreement. This agreement will finance feasibility studies for a battery energy storage system (BESS) project in Togo – a crucial step.

Togo is launching a pilot battery energy storage project to stabilize its national grid and accelerate the country's shift toward renewable energy. The initiative is being supported by the French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP), which have.

Togo has begun construction on a 25 MW solar plant with 36 MWh of battery storage in the country's north. China's TBEA International Engineering is leading the project, which is scheduled for completion within 13 months. An installation ceremony for the project took place last week Image: Togo's.

Togo is taking a significant leap forward in its energy transition by launching a 55 MW pilot project for battery storage. This ambitious initiative, backed by a €25 million loan from the French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP), is set to.

(Togo First) - Togo is set to pilot a green energy storage program after the French Development Agency and the Global Energy Alliance for People and Planet (GEAPP) signed an agreement for 112 million CFA francs (\$200,000) to finance feasibility studies. The announcement was made on the sidelines of.

Togo is preparing to launch a pilot program for green energy storage following an

agreement signed by the French Development Agency and the Global Energy Alliance for People and Planet (GEAPP) to provide 112 million CFA francs (\$200,000) to fund feasibility studies. This announcement was made.
