

# Arc flash switchgear for sale in Kuala-Lumpur

## Overview

---

What arc flash mitigation solutions do you offer?

We offer a variety of arc flash mitigation solutions, such as switchgear, software, and circuit breakers, for both passive and active arc flash protection. Our systems comply with the National Fire Protection Association (NFPA) 70E: standard for electrical safety in the workplace. Need help?

What are the best practices for preventing arc flashes in Malaysia?

Here are the best practices for preventing arc flashes in Malaysian facilities: Conduct Arc Flash Studies using IEEE 1584 to assess risks. Ensure Compliance with NFPA 70E & Suruhanjaya Tenaga (ST) regulations. Use Proper PPE based on incident energy levels. Implement Remote Switching to minimize exposure.

What is an arc flash?

An arc flash is an electrical accident that creates a high-temperature explosion. It can vaporize surrounding metal, set fires, and result in severe burns. Although rare, arc flashes can have grave consequences so you need to ensure your people and site are always protected.

How many arc protection relays does AA protection supply?

Happy exploring! E V E R Y Y E A R Up to year end of 2019, AA Protection has been supplying for more than 3,500 arc protection relays and 15,000 arc point sensors to the largest power utility in Southeast Asia, known as Tenaga Nasional Berhad (TNB) in Malaysia.
