

Brazzaville Bridge Folding Container 25kW

Overview

The Brazzaville–Kinshasa Bridge is a proposed road-rail bridge construction project over the Congo River. It will connect the Republic of the Congo with the Democratic Republic of the Congo at their respective capitals, Brazzaville and Kinshasa. The project has proceeded intermittently, but work was slated to begin in 2023 and be completed in 2028. BackgroundThe cities of and , capitals of the (ROC) and the (DRC) respectively, are situated on opposite banks of the . They are the clos.

The rail link will be single track. Both sides of the bridge use the same 1067mm gauge. For compatibility with third rails or sleepers should be provided.
