

# Brunei power station energy storage project bidding

## Overview

---

Why is Brunei focusing on developing downstream energy industries?

The country is focusing on developing downstream energy industries by maximising economic spin-of potential from upstream production and assets. Brunei Darussalam aims to reduce its energy intensity by 45% in 2035 from the baseline year of 2005, in line with its regional commitment to the Asia-Pacific Economic Cooperation.

What is the target of electric vehicle deployment in Brunei Darussalam?

The target of electric vehicle deployment is subject to future development of electric vehicle technologies and infrastructure. Brunei Darussalam rolled out a pilot project for electrical vehicles in 2021 by providing public charging infrastructure. • CCS. Capturing and storing up to 90% of CO from burning fossil fuel for electricity generation and.

Why is Brunei Darussalam focusing on oil & gas development?

Brunei Darussalam continues to strengthen upstream oil and gas activities to ensure long-term energy security and sustainability of oil and gas reserves. It is developing unexplored areas, such as deepwater fields. Rejuvenation of current upstream-producing assets is a priority to enhance recovery from existing fields and maximise production.
