

# Bulk Procurement of 60kWh Energy Storage Containers

## Overview

---

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap.

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap.

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap. Adding bulk energy storage to New York's grid will lower costs.

The 2024 UDR Request for Proposal (UDR4) was released December 16, 2024. The program grants scheduling and dispatch rights to Con Edison for new front-of-the-meter energy storage resources in exchange for enhanced revenue certainty. Must be interconnected in the CECONY and O&R service territory.

New York State continues to advance its bulk energy storage deployment efforts, and a final Bulk Storage Implementation Plan is now likely to be made public before the end of April—with procurements set to begin by June 30, 2025. On Friday, March 21, the Public Service Commission ("PSC") approved.

RG&E has developed a request for proposal (RFP) to procure a minimum of 10 MW of energy storage projects to be in service by December 31, 2030. This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution.

This 60kWh uses a single module 51.2V 100Ah LiFePO4 battery pack. A single cluster is connected in series to form a high-voltage battery system with a maximum capacity of 614.2V 100Ah. It is used in battery energy storage in the commercial field and can be expanded by connecting the same battery.

State incentives will be the solar and storage industries best path forward during the Trump years. New York has officially opened its first Bulk Energy Storage Request for Proposals (RFP), a competitive solicitation to procure 1 gigawatt (GW)

of large-scale energy storage as part of the state's 6.
