

# China Solar Outdoor Site Energy

## Overview

---

is the largest market in the world for both (PV) and . Its PV capacity crossed 1,000 gigawatt (one , 1 TW) in May 2025. By June 2025, China's PV capacity surpassed 1,100 gigawatt. In 2024, China added 277 gigawatts (GW) of solar power, which was equivalent to 15% of the world's total cumulative installed solar capacity.

## China Solar Outdoor Site Energy

### China brings the world's first 1-GW offshore solar farm online

China has connected the world's first 1-GW offshore solar farm to the grid, a plant off Shandong set to generate 1.78 TWh per year.

### [China's Solar Boom: A Simple Guide to a Big ...](#)

China is changing the world's power game. In May 2025 its solar farms made over 100 terawatt-hours (TWh) in one month. That is ...

### Solar power in China

Solar power contributed a small portion of China's total energy use in 2020, accounting for 3.5% of China's total energy capacity. [11] Chinese leader Xi Jinping announced at the 2020 Climate ...
