As the name suggests, a hybrid solar system is a solar system that combines the best characteristics from both grid-tie and off-grid solar systems. In other words, a hybrid solar system generates power in the same way as a common grid-tie solar system but uses special hybrid inverters and batteries.

The Smarten Helio MPPT in-built Lithium Battery Solar PCU is a next-generation power conditioning unit designed for reliable and efficient solar energy management. Powered with advanced MPPT technology, it ensures maximum solar energy extraction even in low-light conditions. With a built-in lithium.

UltraGroup offers a wide range of solar inverters, including Solar Grid Interactive, Grid Tie, and variants, as well as Online UPS and Solar + Online UPS systems. Our products cater to various sectors such as Industrial, Commercial, Residential, and more, ensuring maximum system availability and.
