What are the key factors to consider when choosing a supplier for solar inverters from China?

The Small Solar Inverter is an essential part of our Solar Inverter offerings. When selecting a supplier for solar inverters in China, factors to consider include product quality, certifications, warranty.

There are several types of solar inverters, and each has its unique manufacturing process and basis in China's diverse production environment. String inverters, commonly used in residential settings, link multiple solar panels in series. They convert the direct current (DC) generated by the panels.

Senergy is a professional solar inverter manufacturer with 20 years of experience in developing and manufacturing a range of solar inverters, including 1-10kW single-phase and 6-100kW three-phase on-grid solar inverters. They also offer energy storage inverters, highlighting their expertise in both.
