

Danish electricity emergency storage prices

Overview

Where can I find current electricity prices in Denmark?

Green Power Denmark shows current electricity prices as well as solar and wind's share of Danish energy production. The figures originate from Energinet's Energy Data Portal. At Drivkraft Danmark, you can find both current prices and the historic price trend from 1970 onwards for e.g. petrol, diesel fuel for motor vehicles and oil.

How secure is the electricity supply in Denmark?

In general, Denmark has a high degree of security of supply in the electricity sector. In 2022, the average consumer had 24 minutes of interruption. 24 minutes of interruption corresponds to having electricity in your power plug on average 99.995 pct. of the time.²¹.

Is Denmark a big importer of electricity?

Denmark is also a net importer of electricity (on the order of 8-10% of consumption), primarily from Sweden (hydro/nuclear) and Norway (hydro), and exports some power to Germany. Recent trends reinforce these shares: generation from wind, solar and biomass has been rising while coal and gas output have declined.

Is there a price regulation under the Danish Gas Supply Act?

There is no price regulation under the Danish Gas Supply Act, but DUR still has a legal obligation to ensure that third party access to storage is provided in a manner that is transparent, non-discriminatory, and objective – including the way in which tariffs are set.
