

# Dubai 5g base station construction communication

## Overview

---

What is Huawei 5G collaboration?

This joint innovation aims to significantly enhance the capabilities of mobile networks by improving connectivity in indoor spaces such as shopping malls, hotels, airports, and residential buildings. It builds on the previous 5G collaborations between Huawei and du.

What is carrier aggregation & 5g-advanced?

A technology in use since the LTE era, carrier aggregation lets network operators combine multiple frequencies to boost the data rate. In the 5G era, 3CC can be harnessed to deliver 5G-Advanced. Saleem AlBlooshi, Chief Technology Officer at du, stated: "We are committed to providing a high-quality user experience to our customers."

Can 3CC deliver 5g-advanced?

In the 5G era, 3CC can be harnessed to deliver 5G-Advanced. Saleem AlBlooshi, Chief Technology Officer at du, stated: "We are committed to providing a high-quality user experience to our customers. Since the introduction of 5G in 2019, we have launched numerous innovative services."

Is 5G a good choice for home wireless services?

Saleem AlBlooshi, Chief Technology Officer at du, stated: "We are committed to providing a high-quality user experience to our customers. Since the introduction of 5G in 2019, we have launched numerous innovative services. Among these, 5G home wireless services have been widely welcomed, and our market share in this area is far ahead."
