Discover our wide range of solar-powered lights for patios, paths and flower boxes – including floor and table lamps and models with practical functions such as motion detectors.

Solar lights come in countless forms and designs: simple geometric shapes, paper lanterns, strings, or in the shape of animals, garden gnomes and statues of Buddha; the possibilities are endless. They can be used without wiring, decorative elements, and can increase safety on paths. Discover.

Solar lights are a sustainable solution for lighting gardens, patios and balconies, as they do not require any electricity to charge. They draw their energy exclusively from the sun. Integrated batteries store the solar energy obtained and supply long-lasting, efficient LEDs. Since solar lights do.

Buy solar lights for every style & need online | ETC Shop: lamps, furniture, technology, household. All from one source. | ETC Shop When the sun goes down, the cosiest part of the day begins for many outdoor areas. But without lighting, the garden quickly becomes dark, uncomfortable - and unsafe.

Power your lights without the need for increased electricity bills from the mains power this winter. Solar lights can be left in your garden all year round and add light to a typically dark area no matter if you prefer a warm light or a cool white light. Wall or ground solar lights can be kept out.
