

European Solar PV Modules

Overview

On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment. Furthermore, the map includes equipment manufacturers and European research centers which are the backbone of European solar innovation.

On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment. Furthermore, the map includes equipment manufacturers and European research centers which are the backbone of European solar innovation.

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment. Furthermore, the map includes equipment.

Lausanne, Switzerland — May 23, 2025 — Sinovoltaics, a Dutch-German Battery Energy Storage (BESS) and Solar Photovoltaic (PV) technical compliance and quality assurance service firm, has released the first 2025 edition of its Europe, Mediterranean, and Turkey Solar Supply Chain Map (SSCM).

As of December 2023, Europe's installed solar photovoltaic capacity reached 224.6 GW, accounting for 13.5% of global installed capacity. Among them, Germany is the largest solar market in Europe, with an installed capacity of 65.1 GW, followed by Spain (33.9 GW), Italy (26.4 GW) and France (25.4).

SolarPower Europe has launched a new report about European solar production equipment manufacturers. A new market analysis from SolarPower Europe highlights the potential of European solar production to underpin the resilience of the European sector. SolarPower Europe has published a new report.

Europe Solar PV Module Market was valued at USD 63.1 billion in 2024 and is estimated to grow at a CAGR of 7% from 2025 to 2034. A solar photovoltaic (PV) module is a device that converts sunlight into electrical energy using photovoltaic (solar) cells. It is the most common component used in solar.

The Europe solar pv module market size was calculated to be USD 62.12 billion in

2024 and is anticipated to be worth USD 110.79 billion by 2033 from USD 66.24 billion in 2025, growing at a CAGR of 6.64% during the forecast period. Solar photovoltaic (PV) modules are pivotal to Europe's renewable.

European Solar PV Modules

SolarPower Europe: High potential of European PV manufacturers

Current solar PV module equipment producers are based across nine European countries (DE, FR, IT, NL, CH, ES, HU, FI, NO). The majority - 75% of European solar ...

[Sinovoltaics Releases 2025 Europe Solar Supply ...](#)

This latest report highlights the rapid changes taking place at European manufacturing facilities and across their supply chains. These ...

EU Solar Manufacturing Map

On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment. Furthermore, the map includes equipment ...

Sinovoltaics Releases 2025 Europe Solar Supply Chain Map ...

This latest report highlights the rapid changes taking place at European manufacturing facilities and across their supply chains. These shifts, while often necessary, ...

Solar Production Equipment

This report shines a light on these key actors of the solar value chain and provides a summary of processes and technology available in Europe for each solar module ...

[Europe Solar PV Module Market Size, Forecast 2025-2034](#)

The European market for solar PV module market was valued at USD 63.1 billion in 2024 and is estimated to grow at a 7% CAGR from 2025 to 2034, driven by increased emphasis on green ...

[Made in Europe: Can the EU Reclaim Solar Panel Production?](#)

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local production. Learn how European-made solar can ...

[Towards 30 GW of PV Manufacturing in Europe](#)

Re-shoring 30 GW of solar PV manufacturing to the EU will require up to 50,000 new, skilled workers, above all in the sectors of cells, modules, and ingots/wafers.

Key Changes in PV Module Selection in the European Solar ...

This article focuses on the key changes shaping the European solar market in 2026, analysing how PV module selection influences project bankability, generation stability ...

[Top 10 Solar Panels Europe Manufacturer 2024](#)

This article introduces ten European solar panel manufacturers for your reference. They have decades of manufacturing history in commercial and household solar panels, and ...

[Europe Solar PV Module Market Size, Share & Trends, 2033](#)

This research report on the Europe solar pv module market has been segmented and sub-segmented based on technologies, products, connectivity, mountings, end users & ...
