

Gabon s uninterruptible power supply factory

Overview

SEEG, the national electricity and water service company of Gabon, was under a concession to the French company Veolia from 1997. In 2019, SEEG was renationalized and holds the monopoly on power production and distribution.

SEEG, the national electricity and water service company of Gabon, was under a concession to the French company Veolia from 1997. In 2019, SEEG was renationalized and holds the monopoly on power production and distribution.

In 2023, Gabon saw a diversification in its import sources of modular uninterruptible power supplies (UPS), with top exporters including France, China, USA, Canada, and UK. The Herfindahl-Hirschman Index (HHI) shifting from high to moderate concentration indicates a more competitive market.

SEEG, the national electricity and water service company of Gabon, was under a concession to the French company Veolia from 1997. In 2019, SEEG was renationalized and holds the monopoly on power production and distribution. Gabon hydropower provides more than half (51 percent) of Gabon's current.

The cause is not a mechanical failure or a supply chain issue, but something more fundamental: an interruption in the national power supply. For any industrial venture in an emerging market, this scenario is a significant, and often underestimated, operational risk. This article assesses Gabon's.
