

Guatemala solar aluminum frame glass manufacturer

 **TAX FREE**    

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

What is aluminum solar panel frame?

Aluminum solar panel frame is a type of aluminum extrusion frame which you can use to fix and seal solar components. Most of the solar panels have solar panel frames which hug the solar back sheets and glass covering at the top. Aluminum solar panel frame Why is Aluminum Solar Panel Frame Important?

What are the benefits of aluminum solar panel frames?

The aluminum solar panel frames protect the solar panels from weather-related and physical damage in the completed solar panel mounting system. The aluminum frames envelop the sides and corners of glass solar panels, supporting the layers beneath the glass and enables the effortless mounting of panels.

Does otalum offer aluminium extrusion solar panel frames?

Otalum offers various aluminum extrusion solar panel frames for sale, available in a range of finishes. If the existing products are not suitable for your needs, we can also assist you in designing your own aluminium profiles for solar panel mounting and provide you with die trails for your reference.

What are solar panel frames made of?

Most of the solar panel frames we provide are made from anodized aluminum due to the strength, durability, and resistance of the material. Anodized aluminum is a non-conductive material which causes no interruptions in the normal functioning of solar panels. It has a high level of tensile strength to resist winds, snow, and other natural elements.
