Solar Street Light
What Is Solar Street Light?
Components of Solar Street Light
Types of Solar Street Lights
How Does Solar Street Light Works?
Is It Worth It to Install Solar Street Lights?
The photovoltaic solar cells will emit the sunlight and convert the gathered solar energy into power energy, which is then stored in the solar battery. At night, the lamp will switch on automatically then consumes the solar power that is stored in the battery. During the first 5 hours of the night, the light will work at average lumens

brightness. See more on solarfeeds
