

Guyana Wind solar Energy Storage Project

Overview

This project, known as GUYSOL Lot 2, is part of the Guyana Utility-Scale Solar PV Program funded under the Guyana-Norway Partnership. According to official announcements, GUYSOL Lot 2 seeks to deploy a total of 15 MWp of solar PV capacity and 22 MWh of battery.

This project, known as GUYSOL Lot 2, is part of the Guyana Utility-Scale Solar PV Program funded under the Guyana-Norway Partnership. According to official announcements, GUYSOL Lot 2 seeks to deploy a total of 15 MWp of solar PV capacity and 22 MWh of battery.

ni-Mazaruni) in March 2023. At twenty-two (22) off-grid locations, GEA installed over 163 kWp of solar PV capacity and 800 kW rine communities in Guyana. A total of 26,398 units were dist and con Regions Three, Four and Six. This project marks the first publicly accessible charging infrastructure.

In a recent interview with The New York Times, Guyana's President Irfaan Ali made bold claims about his country's commitment to a clean energy transition, funded by its newfound oil wealth. He stated, "We're investing in solar farms, hydro, natural gas, wind, and biomass, all aimed at transitioning.

This project, known as GUYSOL Lot 2, is part of the Guyana Utility-Scale Solar PV Program funded under the Guyana-Norway Partnership. According to official announcements, GUYSOL Lot 2 seeks to deploy a total of 15 MWp of solar PV capacity and 22 MWh of battery storage in Linden, Guya The.

Guyana Power and Light Inc. (GPL) has issued a call for bids for the engineering, procurement, and construction (EPC) of a 15-megawatt peak (MWp) solar PV system with 22 megawatt-hours (MWh) of battery storage for the isolated Linden system. Financing for this initiative comes from the \$220.8.

The Guyana Energy Agency continues to support national efforts in transforming the country's sustainable low-carbon pathway and the energy sector as it contributes to providing cleaner, affordable energy access for all, as well as promoting energy efficiency and conservation practices. - END - How.

Onderneeming Solar Farm (Region Two): A 5 MWp solar farm at Onderneeming

was commissioned on November 2, 2025. This project is Guyana's largest hybrid solar-plus-storage power facility and is expected to provide greater grid reliability for thousands of residents in the Essequibo region. [Read more](#)
