

# High quality 220 gfci breaker in Brunei

## Overview

---

Featuring a plug-on neutral design for quick installation without pigtails, it supports 240 volts and boasts a 10,000 AIC fault interruption rating. UL listed and HACR/SWD rated, this black copper breaker delivers reliable, code-compliant electrical safety for modern homes. Batteries.

Featuring a plug-on neutral design for quick installation without pigtails, it supports 240 volts and boasts a 10,000 AIC fault interruption rating. UL listed and HACR/SWD rated, this black copper breaker delivers reliable, code-compliant electrical safety for modern homes. Batteries.

A 220V GFCI breaker (Ground Fault Circuit Interrupter) is a critical safety device in modern electrical systems, designed to protect against electric shock and fire hazards by detecting ground faults. These breakers monitor current imbalances between hot and neutral wires, cutting off power within.

**ROBUST PERFORMANCE** - Rated for 120 Volt AC, this breaker is built to handle your power needs with ease. **SMART TRIP INDICATOR** - Siemens' exclusive LED pinpoints the cause of any trip, ensuring peace of mind. **SEAMLESS INSTALLATION** - Experience faster, cost-effective setups that meet all code.

A Ground Fault Circuit Interrupter (GFCI) breaker is an essential safety device in electrical systems, designed to protect against electric shock and fire hazards by quickly cutting off power when a ground fault is detected. These breakers are widely used in residential, commercial, and industrial.

The SIEMENS Q115DFN is a 15 Amp, 1-pole dual function circuit breaker combining CAFCI and GFCI protection. Featuring a plug-on neutral design for quick installation without pigtails, it supports 240 volts and boasts a 10,000 AIC fault interruption rating. UL listed and HACR/SWD rated, this black.

**RELIABLE SAFETY** - Dual function AFCI/GFCI protection keeps your home safe from electrical hazards. **ROBUST PERFORMANCE** - Rated for 120 Volt AC, this breaker is built to handle your power needs with ease. **SMART TRIP INDICATOR** - Siemens' exclusive LED pinpoints the cause of any trip, ensuring peace of.

Testing GFCIs and afcis on a monthly basis is a good idea that is sometimes

forgotten. Underwriters laboratories (UL) suggests that afci/GFCI Devices be tested every 30 days after installation to ensure they are properly working. Now the new self test & lockout feature enables the dual function.

## High quality 220 gfci breaker in Brunei
