According to research by trade body SolarPower Europe, Chinese firms control approximately 65 percent of the total installed power in the solar sector. | Joan Cros/NurPhoto via Getty Images BRUSSELS — First it was telecom snooping. Now Europe is growing worried that Huawei could turn the lights.

Huawei FusionSolar enters into strategic partnership with EEBUS to drive energy transition in Germany - EEBus - Empowering the digitalisation of Energy transition. [Düsseldorf, Germany, 09 May 2025] Huawei FusionSolar, a leading provider of smart photovoltaic solutions, is pleased to announce a.

[Munich, Germany, 19th June] On 19 th June 2024, Munich, Germany, SUNOTEC and Huawei Digital Power signed a Memorandum of Understanding (MoU), to deepen their cooperation, with regards to the supply of innovative and reliable energy storage systems, while providing comprehensive technical support.

According to research by trade body SolarPower Europe, Chinese firms control approximately 65 percent of the total installed power in the solar sector. Hector Retamal/AFP via Getty Images BRUSSELS — First it was telecom snooping. Now Europe is growing worried that Huawei could turn the lights off.

As in many other industries, the development and expansion of solar energy in Germany is therefore dependent on Chinese manufacturing, and in a broader context, so is the planned long-term national energy transition. Already have an account?
