

Kampala Wind and Solar Energy Storage Power Station

Overview

Uganda has authorized Energy America and EA Astrovolt to develop a large-scale solar and storage facility as part of its 1 GW renewable rollout.

Uganda has authorized Energy America and EA Astrovolt to develop a large-scale solar and storage facility as part of its 1 GW renewable rollout.

The Government of Uganda authorised the construction of a 100 MW solar photovoltaic plant with a 250 MWh battery energy storage system in Kapeeka. The facility will be developed by U.S.-based Energy America, with its East Africa subsidiary, EA Astrovolt, serving as lead project developer and.

The grant will provide crucial funding to accelerate development activities for the 100Mwh/25.6MW Pabbo Hybrid Energy Storage and Generation Project in the northern region of Uganda. of 20+ years using a stored energy system to ensure plant availability to supply the grid and be dispatched when.

What's happening at energy toolbase?

“The positive news that we can report at Energy Toolbase is that we are continuing to see record ESS activity and demand, measured by ESS proposals generated on the ETB Developer platform, and closed ESS purchase orders that utilize our Acumen EMS controls.
