

# Kathmandu solar container battery Project

## Overview

---

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.

Kathmandu: Gham Power to install Nepal's Largest solar battery storage system with an equivalent capacity of 4 MWh. This milestone project, implemented in partnership with Practical Action and UK-based energy storage experts Swanbarton, has officially been awarded by the United Nations Industrial.

The company announced that this initiative aims to help industries and businesses reduce diesel consumption and transition toward decarbonisation through smart grid development. Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations.

Gham Power together with its partners Practical Action and Swanbarton have officially been awarded a project by United Nations Industrial Development Organization (UNIDO) to install one of the largest energy storage systems in Nepal, with a total battery capacity of 4MWh. This installation will.

Kathmandu: Gham Power, with its partners Practical Action and Swanbarton, have officially been awarded a project by the United Nations Industrial Development Organization (UNIDO) to install one of the largest energy storage systems in Nepal, with a total battery capacity of 4MWh will help.

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organization (UNIDO) to install one of Nepal's largest energy storage systems, with a total battery capacity of 4MWh. This initiative aims to help industries.

"Energy storage isn't just technology - it's the bridge between Nepal's hydropower potential and 24/7 reliable electricity." - SunContainer Innovations Project Analyst 1. Grid-Scale Battery Systems Our analysis shows lithium-ion

batteries could reduce load-shedding by 73% when installed at 12.

## Kathmandu solar container battery Project
