Sanctity Technology Ltd offers customized, affordable, and reliable solar systems in Kenya for homes, businesses, and institutions across Nairobi and other regions. As frequent power outages and rising electricity costs continue to affect many areas, solar energy has become the smart and.

We specialize in integrating battery storage solutions with photovoltaic (PV) solar power systems. An off-grid system may be necessary for locations where there is no electricity. As an EPC, we are a trusted partner to our commercial & industrial (C&I) in today's solar and energy storage market.

GSL Energy's wall-mounted rack LiFePO4 battery maximizes space with powerful energy storage. Designed for durability with 6,500+ cycles, it supports parallel expansion for scalable solutions. Ideal for solar systems, backup power, and off-grid solutions use. GSL Energy's Power Tower features a.

Our team will strategically design your solar setup, selecting the right combination of batteries, inverters, and solar panels. We factor in your daily usage, available space, and future energy goals for maximum efficiency. Once approved, we proceed with professional installation by certified.

Are you tired of losing power during blackouts or wasting excess solar energy because you have nowhere to store it?

An Energy Storage System (ESS) could be the solution you need. At FirstSun Technologies, we're here to help you understand how ESS works, which brands to trust, and how to maximize.

Pawal Ventures Ltd is a specialized EPCM contractor delivering tailored solar and storage solutions (50kW-5MW) for the Commercial and Industrial sector. We integrate world-leading technology and engineering to build resilient, client-focused systems. Today, as a vertically integrated energy.
