

Kosovo solar Glass

Overview

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southwestern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

What is the Kosovo compact?

In line with Kosovo's current focus of transitioning towards an energy future that is more sustainable, inclusive, reliable, and affordable, the Kosovo Compact focuses on addressing Kosovo's unreliable supply of electricity, a binding economic constraint for the country, through three projects.

Is Kosovo a democratic country?

Kosovo is a young, vibrant democracy in the Balkan Peninsula of Southeastern Europe with visible commitments to democratic values and institutions and investing in its citizens. Kosovo was selected to develop a \$202 million compact program in December 2018 while the country continued to implement an ongoing threshold program.
