Will a shift in subsidy distribution save RM4 billion in electricity subsidies?

In contrast, the lowest 50% of electricity consumers, who used the least electricity, received only 10% of the subsidy. Anwar highlighted that this shift in subsidy distribution is projected to save the government more than RM4.6 billion in electricity subsidies this year while keeping electricity tariffs unchanged for 90% of consumers.

Does Tenaga Nasional Bhd charge a surcharge?

Low-voltage non-domestic users were imposed with a 3.7 sen/kWh surcharge in 2H2023, while medium- and high-voltage users paid a 17 sen/kWh surcharge in the same period. This remains lower than Tenaga Nasional Bhd's generation costs, which stood at 27.2 sen/kWh in 1Q2023, according to the latest available quarterly data.
