

Kyiv company that makes energy storage batteries

Overview

Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.

Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.

Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said. DTEK partnered with American energy firm Fluence Energy Inc. —

The loan agreement covers five energy storage installations with a total capacity of 180MW. Credit: DTEK. DTEK has secured a \$72m loan to construct what has been described as one of the largest battery energy storage (BESS) facilities in Eastern Europe. The funding will be provided by the.

IPP DTEK Group and system integrator Fluence have together put a 200MW/400MWh BESS portfolio in Ukraine into commercial operation, a milestone praised by the country's energy minister Svitlana Grinchuk. The six battery energy storage systems (BESS) range from 20MW to 50MW each, have been connected.

DTEK, Ukraine's largest private energy company, has selected Fluence Energy B.V., a subsidiary of Fluence Energy, Inc. (NASDAQ: FLNC) ("Fluence"), a global market leader delivering intelligent energy storage, operational services, and asset optimization software, to supply Ukraine's first.

In just six months — under shelling, blackouts, and wartime restrictions — Ukraine completed Eastern Europe's largest battery storage project: 200 megawatts / 400 megawatt-hours of clean, instant-power capacity — spread across six sites, powered by American technology, operated by Ukrainian.

DTEK received a \$72 million loan to help build a battery energy storage (BESS) facility, one of the biggest in Eastern Europe. The state-owned Oschadbank, Ukrgasbank, and PUMB will give out the funding. Before the attack began in

February 2022, about 10% of Ukraine's energy came from renewable.
