

# Large-scale renewable energy solar site in Sao Tome and Principe

## Overview

---

The Santo Amaro solar park is a joint initiative of the Government, UNDP, UNIDO, and the AfDB. The turnkey 1.7 MWp facility was developed in two phases: a 0.5 MWp plant financed by UNDP, completed and commissioned in late 2022, and a 1.2 MWp expansion financed by AfDB.

The Santo Amaro solar park is a joint initiative of the Government, UNDP, UNIDO, and the AfDB. The turnkey 1.7 MWp facility was developed in two phases: a 0.5 MWp plant financed by UNDP, completed and commissioned in late 2022, and a 1.2 MWp expansion financed by AfDB.

São Tomé and Príncipe takes another concrete step towards the energy transition with the inauguration of the 1.2 megawatt photovoltaic solar park, integrated in the Santo Amaro power plant, which was attended by several individuals, namely the HE Prime-Minister of São Tomé and Príncipe, Dr. Américo.

With the inauguration of the Santo Amaro photovoltaic solar park with a total electric capacity of 1.7-megawatt, the Government of São Tomé and Príncipe has taken another concrete step toward achieving its national renewable energy targets and advancing the implementation of its NDC. The ceremony.

Release, the off-grid business of Norwegian renewable power producer Scatec (OSL:SCATC), has signed a lease agreement with the Water Supply and Electricity Company of Sao Tome e Principe (EMAE) for a solar plant in the central African country. GE Vernova's onshore wind turbine. Image credit: GE.

São Tomé and Príncipe is poised to embrace a new era of sustainable energy with the launch of a cutting-edge photovoltaic plant set to produce 10 megawatts of energy. The project, unveiled last week, boasts a total investment of 60.7 million euros and enjoys co-financing from prominent entities.

The Government of São Tomé and Príncipe is focused on attracting increased investment in the power sector through a comprehensive Renewable Energy Development Initiative (REDI). This initiative aims to enhance the reliability and sustainability of the nation's energy supply while raising the.

Last week, São Tomé and Príncipe (STP) officially joined AMP and hosted a two-day

project launch workshop, becoming one of the newest national projects under active implementation. Although around 70% of rural areas in STP are electrified, many communities remain off-grid or face unreliable supply.

## Large-scale renewable energy solar site in Sao Tome and Principe

### [Exploring the Potential of Renewable Energy Sources in](#)

The potential of renewable energy sources in São Tomé and Príncipe's energy market is immense. The country's tropical climate and geographical location make it an ideal ...

### **ALER**

São Tomé and Príncipe will have a new photovoltaic power station to produce more than 10MW of energy, in a 60.7 million dollar project co ...
