

Lome Department of Industry and Information Technology 5g base station connection

Overview

How many 5G base stations are there in China?

This undated file photo shows a staff member installing equipment on a 5G base station in northwest China's Xinjiang Uygur Autonomous Region. (Xinhua) The number of 5G base stations in China had risen to more than 3.5 million by the end of February 2024, latest data from the Ministry of Industry and Information Technology (MIIT) showed.

How many 5G base stations are there in India?

Citing that the country has built a staggering 4.19 million 5G base stations, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

How 5G technology is transforming China's economy?

According to MIIT data, 5G technologies have been integrated into 71 major economic categories in China. Zhao Zhiguo, the ministry's chief engineer, said the ministry will continue to promote the digital transformation of industries and carry out the AI Plus initiative to speed up new industrialization empowered by digital technologies.
