

Manila Solar Container 20MWh

Overview

When will solar PV systems be installed in Metro Manila?

The installation of the solar PV systems will begin in the fourth quarter of this year. This project is in partnership with Ditrolic Energy under its 15-year Solar Facility Power Purchase Agreement. Once completed, the integrated solar systems would benefit consumers in Metro Manila including Rizal Province, San Juan City, and Quezon City.

Where will Manila Water set up solar energy systems?

Manila Water will set up solar energy systems in Cardona Treatment Plant, East La Mesa Treatment Plant, and the San Juan Compound, the east zone concessionaire said in a statement on Tuesday.

Where are solar panels being installed in Manila?

Ongoing installation of solar panels at Manila Water's East La Mesa Treatment Plant earlier this month. Manila Water is also installing solar power facilities at its San Juan Compound and Cardona Treatment Plant.

Will ditrolic energy install a solar power plant in Manila?

Manila Water partnered with Ditrolic Energy last year for a 15-year solar facility power purchase agreement worth P217 million. The three facilities are set for installation by the fourth quarter of this year.
