LONDON, 6 September 2024: Actis, a leading global investor in sustainable infrastructure, has agreed to enter a strategic partnership with Manila Electric Company (Meralco) and its subsidiary, Solar Philippines New Energy Corporation, to invest in the Terra Solar Project, poised to be the world's.

A green lane certificate gets approved to the 3.5GW solar PV and 4.5GWh BESS Terra Solar project in the Philippines, enabling faster construction. The Board of Investments' (BOI) green lane permission will soon allow the Philippines to host the largest solar and battery storage project globally.

Infrastructure investor Actis has entered a strategic partnership with the companies behind a 3.5GW solar, 4.5GWh BESS project in the Philippines, one of the largest in the world. The firm has agreed to partner with utility Manila Electric Company (Meralco) and its subsidiary, Solar Philippines New.

cs and Financial Analysis (IEEFA) says. To grow faster and attract even more financ
d energy storage will launch this year. According to an announcement from the
department yesterday, the fourth round of the DOE's Green Energy Auction
(GEA-4) will be age plant, i augurated early last year. Image:.

ACEN aims to integrate renewable energy better and further enhance grid
reliability through its pioneering battery storage projects in the Philippines and
overseas markets. MANILA, Philippines — Energy storage is stepping into the
spotlight of the country's green transition, with more companies.

The investment firm Actis has signed a strategic partnership with Manila Electric

Company (Meralco), and its subsidiary, Solar Philippines New Energy Corporation (SPNEC), to invest US\$600 million in the 3.5 GW Terra Solar project, which is expected to become the world's largest integrated renewable.
