Nairobi, Tuesday, July 29, 2025: The Kenya Electricity Generating Company PLC (KenGen), has commissioned a new Battery Energy Storage System (BESS) to supply uninterrupted renewable power to its modular data center, marking a new frontier in Kenya's long-term green energy strategy. The newly.

Kenya's largest electricity company, Kenya Electricity Generating Company (KenGen), has commissioned a Battery Energy Storage System (BESS) to power its modular data center at its headquarters in Nairobi. First reported by the Citizen, the system, which has a capacity of 1.16MWh, will serve.

Elijah Ntongai, an editor at TUKO.co.ke, has over four years of financial, business, and technology research and reporting experience, providing insights into Kenyan, African, and global trends. The Kenya Electricity Generating Company PLC (KenGen) has officially commissioned its first Battery.

KenGen's recent launch of a 1.16 megawatt-hour (MWh) Battery Energy Storage System (BESS) in Nairobi came with all the typical trimmings of a milestone event. The system, installed to power a modular data centre located at KenGen's headquarters, is meant to showcase how battery technology can play.
