

New Delhi Dartech solar container outdoor power

Overview

Does Delhi have a solar policy?

He emphasised that while Delhi lacks the vast land resources of other states, it is leading through innovation, solar energy, and digital technology. The city's new solar policy envisions "every rooftop as a power plant".

How will Delhi's new solar system affect electricity costs?

In April 2025, the Delhi assembly introduced a plan to install a 500 kW rooftop solar system within 100 days. Currently, the assembly has two 100 kW solar plants. The proposed expansion is expected to cut electricity costs by approximately Rs 1.5 million per month.

What is the capital subsidy for solar projects in Delhi?

State Capital Subsidy: Under the new Delhi Solar Policy, the Capital subsidy for all Solar projects for residential customers shall be given at the rate of Rs. 2,000/- per KW upto a maximum of Rs. 10,000/- per consumer. The subsidy will be passed through their first electricity bill post-commissioning of the RTS system.

How has Delhi's solar policy impacted rooftop solar adoption?

At the time of the policy announcement, Delhi's installed rooftop solar capacity stood at 237 MW, which has increased to 313.4 MW, as of March 31 2025, indicating a 32 per cent increase in a year. This growth reflects the early impact of the policy, which catalysed a surge in rooftop solar adoption across the capital.
