

# Niger container generator set

## Overview

---

What is a containerized diesel generator set?

This containerized diesel generator set is developed by Ausonia S.r.l. This generator set is custom made specifically for power plants in LV and mV . DIESEL GENERATORS T2 T2 series diesel generators adopt PowerLink engine to meet the needs of energy service production. Their power ranges from 8KW to 3500KW.

What is included in a container generator?

The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, control panel and accessories such as lighting and fire extinguishers. Apart from the preparations for the load connection no further construction work at site is necessary.

How many generators can be used in a container genset?

The container gensets can be powered by engines of following manufacturers: The container built-in control panels are based on the intended use, e.g. manual/stand alone operation, emergency/standby or parallel operation. In parallel mode (GenSet-GenSet), up to 32 generators can be used as 'Power-Plant'.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.
