

Nordic 5g base station communication project bidding

Overview

Are Nordic operators celebrating 5G availability?

Analysis of Speedtest Intelligence ® data confirms that Nordic operators have much to celebrate. In Q4 2024, Nordic countries claimed three of the top five positions in Europe for 5G Availability—the percentage of users with 5G-capable devices spending most of their time connected to 5G networks.

Is the Nordic region a good place to invest in 5G?

Home to two of the world's largest radio vendors, Ericsson and Nokia, and characterised by markedly higher operator profitability than much of the rest of Europe, the Nordic region remains a key bright spot in Europe's struggle for competitiveness against the Middle East, North America and Asia in 5G.

Why did nib finance ice's 5G expansion in 2024?

In the first half of 2024, the Nordic Investment Bank (NIB) provided a 15-year €85 million loan to Lyse AS, the owner of Norway's third mobile operator, Ice, to finance the upgrade of over 2,800 mobile sites and the development of more than 3,500 new ones, aiming to extend Ice's 5G coverage to 99.5% of the population over the next three years.

Is 5G a key to digital transformation in Nordic countries?

Nordic countries have consistently prioritised 5G access as a cornerstone of ambitious national digital transformation strategies. For example, the Norwegian government has introduced a range of policy measures aimed at achieving its goal of becoming the "world's most digitalised country by 2030".

Nordic 5g base station communication project bidding

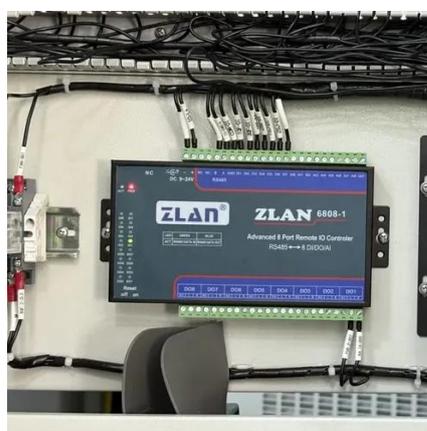

[Nokia, Telia and Finnish Defense Forces achieve world's](#)

Espoo, Finland - Nokia, Telia and the Finnish Defense Forces have successfully conducted the world's first seamless 5G standalone slice handover between multiple countries ...

Lyse AS (Norway)

The Nordic Investment Bank (NIB) and the Norwegian utility and telecommunications firm Lyse AS have signed a 15-year NOK 1 billion (EUR 85 million) loan ...
