

North Korean solar tiles

Overview

Will North Korea build a tile factory in Pyongyang?

North Korea's trade ministry recently approved plans by a North Korean-Chinese joint venture to build tile factories in Pyongyang and in a region near the China-North Korean border.

Does North Korea have solar?

However, despite its growing prominence, solar installations still only make up a fraction of office and factory rooftops in North Korea. Today, solar can be found on some of North Korea's most important or high-profile civilian factories, outlined below.

Where is solar installed in North Korea?

Today, solar can be found on some of North Korea's most important or high-profile civilian factories, outlined below. The factories were chosen for the size of the installation and their notability, usually though consistent mentions in state media reporting.

How many solar panels are there in North Korea?

The Korea Energy Economics Institute in Seoul estimates that 2.88mn solar panels, mostly small units used to power electronic devices and LED lamps, are now in use across North Korea, accounting for an estimated 7 per cent of household power demand.
