HARSTAD, Norway — An agreement with Norway that provides U.S. forces with access to a dozen Norwegian military facilities and areas remains in place, a Norwegian official said, with Washington moving ahead with investments to expand an airbase where F-35s are stored. Officials from both governments.

The US Ambassador to Norway, Marc Nathanson, and Norway’s MoD Bjørn Arild Gram (Labor) at the signing of a re-negotiated supplementary defense cooperation agreement on Friday. The agreement will be sent to a hearing before being considered in the Norwegian parliament. (Photo: Asgeir Spange.

The Norwegian and US MoDs have agreed on new Arctic cooperation on American architecture for warfare in space - particularly aimed at defense against cruise missiles. The basic idea is that incoming missiles will be quickly warned against, tracked, and destroyed through a network including.

Today, Defence Minister Bjørn Arild Gram and U.S. ambassador to Norway, Marc Nathanson, signed an amendment agreement under the Supplementary Defense Cooperation Agreement (SDCA). The agreement declares intent to establish eight

additional agreed facilities and areas in Norway. Pending the consent. How many US military bases are in Norway?

On Friday afternoon, Norwegian MoD Bjørn Arild Gram and the US Ambassador to Norway, Marc Nathanson, signed an amendment agreement establishing eight new agreed areas. The US already has unimpeded access to and use of four military bases in Norway. In Northern Norway, these include the Ramsund Naval Station and Evenes Air Station.

What will Norway's new space station do?

According to the Norwegian MoD, this new establishment will support space infrastructure for situational awareness and communications on command, control, and warnings. A central aspect is early warning for Norway and NATO regarding possible incoming cruise missiles in the High North.

Will Norway build a satellite station on Andøya?

Prior to this, Norway and the US announced plans for the construction of a temporary satellite station on Andøya for early missile warning in the High North. Andøya Spaceport officially opened in November 2023. It was established through a grant of NOK 365 million passed by the Norwegian parliament in 2020.

How many 'unimpeded' areas does the US have in Norway?

Under the agreement, U.S. forces and contractors have “ unimpeded ” access to a total of 12 agreed Norwegian areas, which involve key military sites such as the Evenes and Sola air stations as well as the Ramsund Naval Station.
