

Off-grid cost of collapsible containers used in Indian ports

Overview

Lease and rent models typically cost ₹150 – ₹300 per day for 20-ft containers and ₹250 – ₹450 per day for 40-ft units, depending on tenure and port location.

Lease and rent models typically cost ₹150 – ₹300 per day for 20-ft containers and ₹250 – ₹450 per day for 40-ft units, depending on tenure and port location.

Between 2022 and 2024, shipping rates for a 40-foot container have fluctuated significantly. It said that in 2022, the average cost was \$ 4,942 due to the lingering effects of the covid pandemic, while by 2024, the rate had stabilized around USD 4,775, it said adding that these rates are still.

India's 7,500-km coastline supports a strong maritime network of 12 major ports and ~200 minor and intermediate ports. These ports handle ~95% of India's international trade by volume and ~70% by value, highlighting their critical economic role. In FY24, Indian ports moved 1.65 billion metric.

Refrigerated ("reefer") containers command much higher prices — new units in the range of ₹5.00 lakh to ₹10.00 lakh+, while used units might trade for ₹4.00 lakh to ₹7.00 lakh, depending on age and condition. These ranges tie back to global used container benchmarks. For instance, one international.

In a recent report, the Global Trade Research Initiative (GTRI) has said that freight costs for Indian exporters shipping goods to Europe and the US have more than doubled in the past year, driven by disruptions in the Red Sea. Last month, delays in ship arrivals at India port were caused by.

Dublin, Dec. 30, 2024 (GLOBE NEWSWIRE) -- The "Container Market in India" report has been added to ResearchAndMarkets.com's offering. In 2023, the container port traffic in India stood at 20.22 million TEUs (twenty-foot equivalent units), expanding at a compound annual growth rate (CAGR) of ~3.53%.

of foldable/collapsible containers as opposed to the current standard equipment. The results shows that using foldable/collapsible containers has the potential to reduce the projected overall amount of containers handled by the port in forthcoming years with substantial decrease (about 80%), as far.
