

Outdoor Wireless Fiber Base Station

Overview

TP-LINK's Outdoor Wireless Base Station is dedicated to cost effective solutions for outdoor wireless networking applications. With its centralized management application, it is flexible and ideal for point-to-point, point-to-multipoint and outdoor Wi-Fi coverage applications. MODEL.

TP-LINK's Outdoor Wireless Base Station is dedicated to cost effective solutions for outdoor wireless networking applications. With its centralized management application, it is flexible and ideal for point-to-point, point-to-multipoint and outdoor Wi-Fi coverage applications. MODEL.

TP-LINK's 5GHz 300Mbps * Outdoor Wireless Base Station is specifically designed to provide an effective solution for outdoor wireless networking applications. With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point.

Distance: Based on connected antennas: omni 8dBi antenna: 400 meters. LNK-AP80 is an Qualcomm Solution 11ac high power industrial use Outdoor CPE with the next generation 802.11ac Wi-Fi standard, combined 1200Mbps Wi-Fi speed over 2.4GHz (300Mbps) and 5GHz (900Mbps), equipped Gigabit WAN port, fast.

ANDREW® helps customers resolve their most pressing challenges through simple, efficient, and sustainable Outdoor Wireless Network solutions that are readily adaptable to new standards and technologies. Wireless operators everywhere are being challenged to add capacity and boost network.

In order to reduce the WISP maintenance cost, we integrate 8kV Ethernet lightning protection module into the S1200AX. This feature along with high durable temperature range and IP65 housing make it far more robust working in outdoor environment. New WisOS with NMS Support The new fresh WisOS web.
