

# Outdoor solar lights in Rotterdam the Netherlands

## Overview

---

In 2023, the city of Rotterdam in the Netherlands took a step into the future by installing a solar street lighting system in its new Callisthenia Park. This self-sufficient solar-powered lighting initiative is part of a growing trend towards sustainable, intelligent urban lighting.

In 2023, the city of Rotterdam in the Netherlands took a step into the future by installing a solar street lighting system in its new Callisthenia Park. This self-sufficient solar-powered lighting initiative is part of a growing trend towards sustainable, intelligent urban lighting.

Think of solar post lights as the set-it-and-forget-it solution for outdoor lighting. Each one has a small solar panel on top that soaks up sunlight during the day. That energy gets stored in a battery, and when it gets dark, the light turns on automatically. No wires, no timers, no fuss. In.
