Battery giant CATL, the largest battery producer in the world, is leaning into the topic and made a notable statement this week on what we can expect in the new year. However, at the same time, it's keen to point out that the future of the battery industry is a mixture of lithium and sodium.

Palau's ambitious renewable energy transition relies heavily on innovative energy storage solutions. This article explores how advanced battery storage systems are transforming the Pacific island nation's power infrastructure, balancing solar energy supply with grid stability dem Palau's ambitious.

CATL is already dominating the global electric vehicle battery market, but now the company is saying sodium-ion batteries will be widely available by the end of 2026. When is CATL launching sodium-ion EV batteries?

Through October, CATL accounted for 38.1% of the global EV battery market in 2025.

CATL confirms 2026 large-scale sodium-ion battery deployment in multiple sectors Contemporary Amperex Technology Co., Ltd. (CATL) said at its supplier conference in Ningde, Fujian province, on December 28, 2025, that it plans to deploy its sodium-ion battery technology at scale across multiple.

CATL announced it expects a new trend of “sodium and lithium batteries shining brightly together.” Chinese battery giant CATL has detailed a wider and larger-scale deployment of its sodium-ion battery range across multiple sectors, including battery storage. Chinese media reports said that CATL, at.

CATL has introduced a reinforced cathode design for sodium-ion batteries, improving energy density, voltage stability, and reducing production costs, making them a competitive alternative to lithium-ion batteries. Sodium-ion batteries offer advantages such as improved safety, better performance in.

Palau Sodium Ion Battery Energy Storage

CATL confirms significant upgrade to sodium-ion battery product ...

They include an expansion in applications to include energy storage, plus use in battery swap systems, passenger vehicles, and commercial vehicles. CATL said this ...

[CATL to Deploy Sodium-Ion Batteries at Scale in 2026](#)

CATL plans large-scale sodium-ion battery deployment in 2026 for swap systems, EVs, and energy storage. Its Naxtra cells offer up to 175 Wh/kg energy density, -40 °C ...

CATL confirms 2026 large-scale sodium-ion battery deployment in

The company described expanded applications in battery swap systems, passenger vehicles, commercial vehicles, and energy storage, indicating a significant commercial ...

EV battery leader CATL is gearing up for sodium-ion batteries in ...

The EV battery giant said its sodium-ion batteries will be used for battery swapping, passenger vehicles, commercial vehicles, and energy storage. CATL Choco-Swap EV battery ...

CATL Sodium-Ion Battery Cuts Costs with Antimony Cathode ...

CATL's sodium-ion battery advances to aqueous production lines and steadier voltage, giving drivers and homeowners more affordable, reliable power storage.

Palau Energy Storage Power Plant: Powering Sustainable Island

Palau's ambitious renewable energy transition relies heavily on innovative energy storage solutions. This article explores how advanced battery storage systems are transforming the ...

CATL's sodium-ion batteries hit record energy density, raising

The company claims its Naxtra cells reach around 175 Wh/kg, a record for sodium-ion batteries and close to what mainstream LFP packs offer today in electric vehicles and ...

[Battery energy storage system production in palau](#)

poses serious challenges on modern power systems. Battery Energy Storage Systems (BESS) are seen as a promising technology to tackle the arising technical bottlenecks

CATL confirms 2026 large-scale sodium-ion battery deployment in

CATL says its sodium ion batteries will see wide application across vehicles and energy storage in 2026.

[CATL Makes Big Announcement on Sodium Batteries for 2026](#)

CATL intends to sell sodium-ion batteries into all sorts of industry segments -- passenger EVs, commercial EVs, and stationary energy storage systems.
