

# Price classification of solar modules

## Overview

---

This year's price index has been reclassified from past years' indices to match solar panel technology types available for sale in today's global market. Each primary category - All Black, Bifacial, and Monofacial - include weighted average prices for P-Type, N-Type (when).

Price Stabilization After Volatility: Solar module prices have stabilized in 2025 with global wholesale prices ranging from \$0.08-\$0.28/W, ending years of dramatic fluctuations as supply-demand dynamics rebalance and weak suppliers exit the market. TOPCon Technology Dominance: TOPCon modules have.

Each year, the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.S. solar photovoltaic (PV) systems to develop cost benchmarks. These benchmarks help measure progress toward goals for reducing solar electricity costs.

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange. For the fourth year, the price index findings shed light on the importance of a.

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies 'Thin film a-Si/u-Si or Global Price Index (from Q4 2013)'. This data is expressed in US dollars per watt, adjusted for inflation. IRENA (2025); Nemet.

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the European market, which has become an invaluable.

At Anza, we provide solar PV data, analytics, services, and market intel to help our

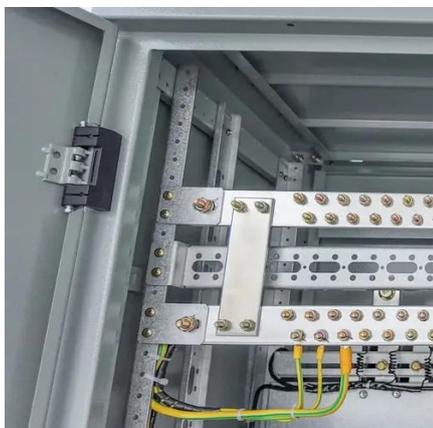

clients with project optimization and procurement decision-making. Our deep supplier relationships, relevancy, and scale enable us to aggregate pricing, availability, and product and manufacturer data from across.
