Enter your address and the cost of your most recent electric bill Our estimator shows how many solar panels your home needs We generate an online cost and savings estimate You choose how many solar companies send you an exact price by email or text Click on your state for solar panels cost.

Solar panel installation means adding a photovoltaic (PV) energy system to your home, mounted on your roof or property. System size, panel type, and labor needs are the biggest cost drivers, along with your roof's condition and any upgrades. Solar panels can sharply reduce your monthly energy bills.

If you own a 2,000-square-foot house, expect to pay around \$29,000 for a complete solar system before tax credits, or about \$20,300 after taking the federal tax credit. How big your home is and how much electricity you use are the main things affecting your cost. A small 1,000-square-foot condo.
