A folding container is a resin-made box that can be compactly folded when not in use. Folding reduces the size to about 1/3 to 1/4, so can be stored compactly during storage and transportation. In addition, containers can be folded and assembled easily and quickly, and can be stacked in both folded.

A folding container is a type of cargo container that can be folded to save space when not in use. These containers are widely used for shipping goods over long distances and can be folded to reduce volume during return trips. Additionally, they are used to transport goods from ports to warehouses.
