

Ratio of new energy storage configuration in Osaka Japan

Overview

Japan's storage configuration ratio surged from 1:4 (storage to solar capacity) in 2020 to 1:1.2 in 2025. Three factors explain this hockey-stick growth:.

Japan's storage configuration ratio surged from 1:4 (storage to solar capacity) in 2020 to 1:1.2 in 2025. Three factors explain this hockey-stick growth:.

Senri Power Storage Station is Osaka Gas's first operational grid-scale battery storage project. (Image: Osaka Gas) Osaka Gas, Itochu, and Tokyo Century commissioned the 11MW/23MWh Senri Power Storage Station in Suita City, Osaka Prefecture, on August 20, 2025, the companies announced on the same.

This article explores how advanced battery storage systems are transforming power management across commercial facilities, renewable energy proje As Japan's third-largest metropolitan area, Osaka faces unique energy challenges balancing industrial demand with environmental goals. This article.

Osaka, Japan — Kansai Electric Power Co., Kinden Corporation, and Japan Excellent Infrastructure (JEXI) have announced plans to build one of Japan's largest grid-connected battery storage facilities in Misaki Town, Osaka Prefecture. The Tannowa Battery Plant will feature an output capacity of 99 MW.

While Japan's electric vehicle adoption trails behind China and Europe—EVs make up less than 1% of its total vehicles—the country's energy storage configuration ratio tells a different story. As of 2025, over 20% of Japanese households have integrated solar-plus-storage systems, the highest.

Utility Osaka Gas and developer Sonnedix are installing what is claimed to be the largest battery storage facility co-located with renewable energy generation in Japan so far. The two companies announced yesterday (4 November) that their jointly operated business is constructing a 30MW/125MWh.

Japanese trader ITOCHU Corp (TYO:8001) announced today that, together with its partners, it has commenced the operation of an 11-MW/23-MWh energy storage facility in Osaka prefecture. Energy storage plant located on the premises of Senri Supply Center owned by OSAKA GAS NETWORK CO. Image by Itochu.
