

Sanaa Telecom charging station

Overview

How do I find a charging station near me?

To find a charging station near you, download and open the ChargeHub application. Please be sure to activate your device's location services. Then, you can consult the interactive map, which will display nearby charging stations. You can also use the map on our website to locate an available charging station.

Is price information available for all charging stations?

Price information is available for several charging networks and is updated regularly. In some countries, price information is already available for most charging stations, while in other countries we are working on adding prices for more networks.

How do I select a charging station?

Selecting an individual station displays the name of the charging host, address, and contact information. Most of the stations also include charging rate information (AC Level 1, AC Level 2, or DC Fast Charge), number of charging ports, and hours of accessibility. Private and planned stations can be displayed by selecting "more search options."

Where does charging station data come from?

Primary Sources: Charging station data is derived from public databases including the U.S. Department of Energy's Alternative Fuels Data Center (AFDC), National Renewable Energy Laboratory (NREL), and various charging network APIs. Data may be supplemented from crowd-sourced and publicly available sources.
