

# Single-phase folding containers for European highways

## Overview

---

The sturdy Euro-sized containers reduce their volume by 80% when folded, thus reducing storage costs, fuel consumption and CO<sub>2</sub>.

The sturdy Euro-sized containers reduce their volume by 80% when folded, thus reducing storage costs, fuel consumption and CO<sub>2</sub>.

Due to the global imbalance of import/export ca. €25 billion a year is spent on repositioning empty containers and unnecessary emissions of CO<sub>2</sub>, NO<sub>x</sub> and PM are generated. The technical solution proposed by HCI is the 4FOLD foldable container. This concept is IP protected by HCI by 8 patents. This.

The containers can be reduced in volume by an astonishing 7580% when folded, which translates to a 300-400% increase in transport capacity per trip, directly leading to a significant decrease in logistics costs. For energy projects that frequently relocate across the vast expanse of North America.

A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS). More than a fifth of containers are returned empty to.

We at 4FOLD reduce empty transport in the most significant way. With a foldable container that saves up to 37% in costs and CO<sub>2</sub>. We are calling all shippers and shipping lines to take responsibility and start saving CO<sub>2</sub> with 4FOLD now Without action the shipping industry will account for 10% of.

Compact Container Systems (CCS) has announced the SeaFold high cube 40 ft container, the world's first five-in-one, foldable shipping container. With more than 20% of returning containers brought back to their port of origin empty, the SeaFold HC 40' aims to combat this. It has the potential to.

NAVLANDIS has developed a suitable solution for foldable containers based on the Zbox folding mechanism (European Patent 3061707), already under a TRL 7 prototype. It guarantees a robust container with a limited number of moving parts that, thanks to its Z movement, requires less human effort, time.

## Single-phase folding containers for European highways

### CCS Five-in-One 'Foldable' Container Set to Transform Global ...

Tests performed by analytics firm, ESG Base discovered that, when compared to transportation of conventional 40' HC containers, five collapsed SeaFold containers in one slot ...

### [Foldable containers: An idea whose time has come ...](#)

Another development that Broekhuis sees for the future of HCI is automating the process of folding the containers. While the process is ...

### 4FOLD

It's true, all the big shipping lines and shippers have seen the full potential of our foldable containers. Cutting out inefficiency in the supply chain and hitting corporate sustainability goals ...

### Customer case study: Navlandis and Marguisa. Foldable shipping

Navlandis, a technology start-up supported by EIT InnoEnergy, has developed a new generation of foldable shipping containers to reduce environmental and economic ...

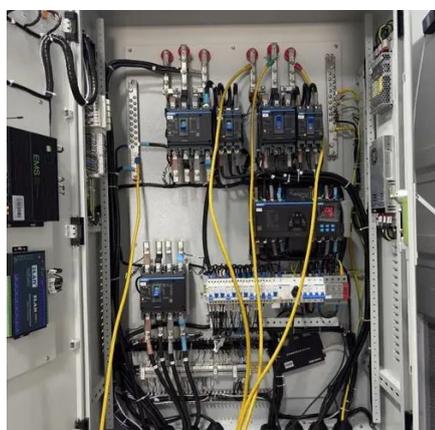

### **Foldable Large Containers**

Plastic bulk carriers from ORBIS Europe offer a sustainable, durable, and economically viable solution for modern logistics processes. As reusable transport packaging, they are used in ...

### **4FOLD Reduction of the International Transport of Empty Containers ...**

The 4FOLD strengthens the EU transport sector by making container transport more time and cost efficient, creating new jobs and tackling the mentioned environmental and ...

### **Space-saving containers**

If you want to make flexible transportation such as store deliveries cost-efficient, you need folding and collapsible boxes from SSI SCHAEFER Plastics. The sturdy Euro-sized containers reduce ...

[Customer case study: Navlandis and Marguisa.](#)

Navlandis, a technology start-up supported by EIT InnoEnergy, has developed a new generation of foldable shipping ...

### 'Foldable' container could transform global box ...

A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) ...

### ZBOX: THE NEXT GENERATION OF FOLDABLE CONTAINERS

The main goal of the project is to move on the concept of a foldable container to industrial readiness. NAVLANDIS has developed a suitable solution for foldable containers ...

### Folding container: European and American space customization

The folding container has been specially reinforced for the diverse climate conditions in North America and Europe. In areas of Canada with severe wind and snow, survival rate of the ...

### Foldable containers: An idea whose time has come

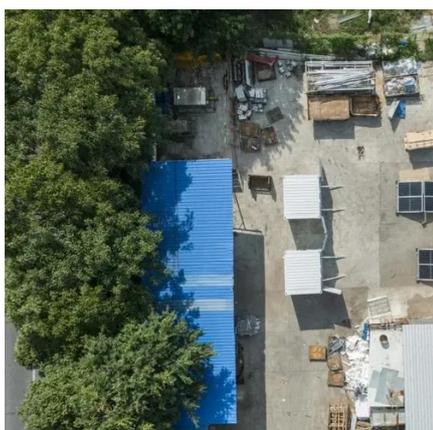

Another development that Broekhuis sees for the future of HCI is automating the process of folding the containers. While the process is safe and easy using traditional terminal ...

### Foldable Large Containers

Plastic bulk carriers from ORBIS Europe offer a sustainable, durable, and economically viable solution for modern logistics processes. As reusable ...

### 'Foldable' container could transform global box logistics

A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) could boost efficiency and transform the carriages of ...

### 4FOLD Reduction of the International Transport of Empty ...

The 4FOLD strengthens the EU transport sector by making container transport more time and cost efficient, creating new jobs and tackling the mentioned environmental and ...
