

# Solar energy storage investment projects

## Overview

---

The United States' burgeoning utility-scale energy storage market has seen three funding announcements commit \$995 million to back another 1,108 MWh of storage capacity in Texas and California.

The United States' burgeoning utility-scale energy storage market has seen three funding announcements commit \$995 million to back another 1,108 MWh of storage capacity in Texas and California.

U.S. solar and energy storage businesses continue to secure financing to scale business and build out the renewable energy transition across the United States. Across four transactions, at least \$890 million in financing was recently announced, demonstrating the strength of solar as it marches.

More than 1.1 GWh of energy storage, the majority of it developed alongside solar projects, is due to come online by the end of next year after three more big US funding announcements. The United States' burgeoning utility-scale energy storage market has seen three funding announcements commit \$995.

## Solar energy storage investment projects
