

Solar glass plus UV

Overview

Does Glasvue offer UV protection?

From tough laminated panels to clever glass with built-in blinds, Glasvue has stuff for any project. Their focus on quality means great UV protection every time. Selecting the right UV-protective glass is key for safe, stylish, and energy-smart buildings. Options like PVB/SGP laminated glass block nearly all UV rays, perfect for museums and homes.

Why should you choose Sunguard solar plus glass?

The high durable coating of SunGuard Solar Plus glass makes it suitable for lamination with the coating against the PVB interlayer, without requiring edge deletion. SunGuard Solar Plus glass can also deliver optical clearness while helping to reduce energy consumption.

What is Sunguard® solar plus?

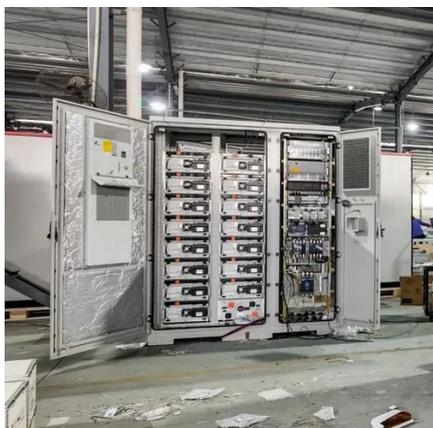

SunGuard® Solar Plus has a durable coating that offers high solar protection and natural light transmission, combined with a highly resistant coating.

Does Sungate® 500 Solarban® 70 low-E window glass increase U-value?

A slight modification to the coating boosts u-value by 10 percent compared to Sungate® 500 SOLARBAN® 70 Low-e window glass by Vitro, formerly PPG, provides clear and comfortable solar control letting in natural light while blocking heat energy.

Solar glass plus UV

Buy Solar Control Glass , Eco-Friendly & Energy-Efficient , Ipswich Glass

Elevate your building's efficiency with our high-quality solar control glass designed for heat reflection and UV protection. Perfect for both residential and commercial applications, our solar ...

Saflex Solar

Saflex Solar PVB interlayers offer superior solar control, reducing heat gain and UV radiation while maintaining high visible light transmittance for laminated glass.

[Low-e Glass , Vitro Architectural Glass](#)

Low-e glass minimizes ultraviolet and infrared light transmission while maintaining optimal visible light transmittance. This keeps interiors warmer in winter and cooler in summer without ...

PureVue(TM) Ceramic Window Film

Ceramic window film that filters harmful UVA and UVB but maintains your pristine view. Reduce glare, energy costs and increase comfort with Solar Gard PureVue.

Solar Glazing: Energy-Efficient Glass with Revolutionary Benefits

Learn how this innovative glass technology can save on energy costs, provide superior insulation, and protect from UV rays, all while generating renewable energy.

Guide to Energy-Efficient Windows

Such low-E glass reflects heat energy either into or out of the house, further enhancing insulation. It also reflects ultraviolet (UV) light away from the house and can protect your household ...

[SunGuard® Solar Plus , Guardian Glass](#)

SunGuard® Solar Plus glass not only offers high solar protection and natural light transmission, but also very low emissivity and the ability to be applied monolithically.

[Buy Solar Control Glass , Eco-Friendly & Energy-Efficient](#)
