

Solar power satellite factory in Cape-Town

Overview

Why did solar MD open its first gigawatt factory in Cape Town?

Solar MD officially opened Africa's first gigawatt factory in Cape Town to support the company's commitment to developing and manufacturing high-performance energy storage solutions that maximise the potential of renewable energy resources.

Will Cape Town become the first city to own a solar power plant?

Cape Town is on track to become the first city in South Africa to own and operate a solar power plant, marking a significant move towards energy independence, Cape {town} Etc reports. Also read: Prasa denies railway collapse risk amid legal battle.

Where is Cape Town building a solar power plant?

The city is currently building a 7 MW solar facility in Atlantis, about 40 km north of Cape Town, with plans to increase capacity to 10 MW in the future. The R200 million (\$11.3 million) project is being managed by the Lesedi Technoserve consortium, which is responsible for the engineering, procurement, and construction.

Why should Cape Town invest in solar power?

"Not only does this investment fuel Cape Town's drive towards a smarter, cleaner and more secure energy future, but it also makes this metro the base for the production of these batteries that are exported into Africa and Europe." Solar MD says the factory can produce up to 3GWh of energy storage in a year.
